

OC STROKE ASSOCIATION

The mission of the OC Stroke Association is to offer Stroke Education, Support Groups, and a Stroke Referral Center.

If you or someone you know has had a stroke, or if you would like more information on preventing a stroke, please call our Office to schedule a visit. You can also visit us on our web-site at www.ocstroke.org or www.rthfoundation.org. You don't have to struggle thru this alone, let us help. Call us today and get the help you need.

We are a nonprofit organization:

- That provides stroke survivors and their families a single source of care and family support
- Offers carefully trained therapists who will work with stroke patients to enable them to lead full and productive lives .
- Allows patients and family members a source for educational information and emotional support, regardless of age, race or economic status.
- Offers monthly seminars on stroke awareness and screenings.

We are committed to healing, training, education and support so that the causes of strokes, a leading and debilitating cause of disability and death, can be prevented, and so that the often devastating after-effects of a stroke can be mitigated.
